The Details

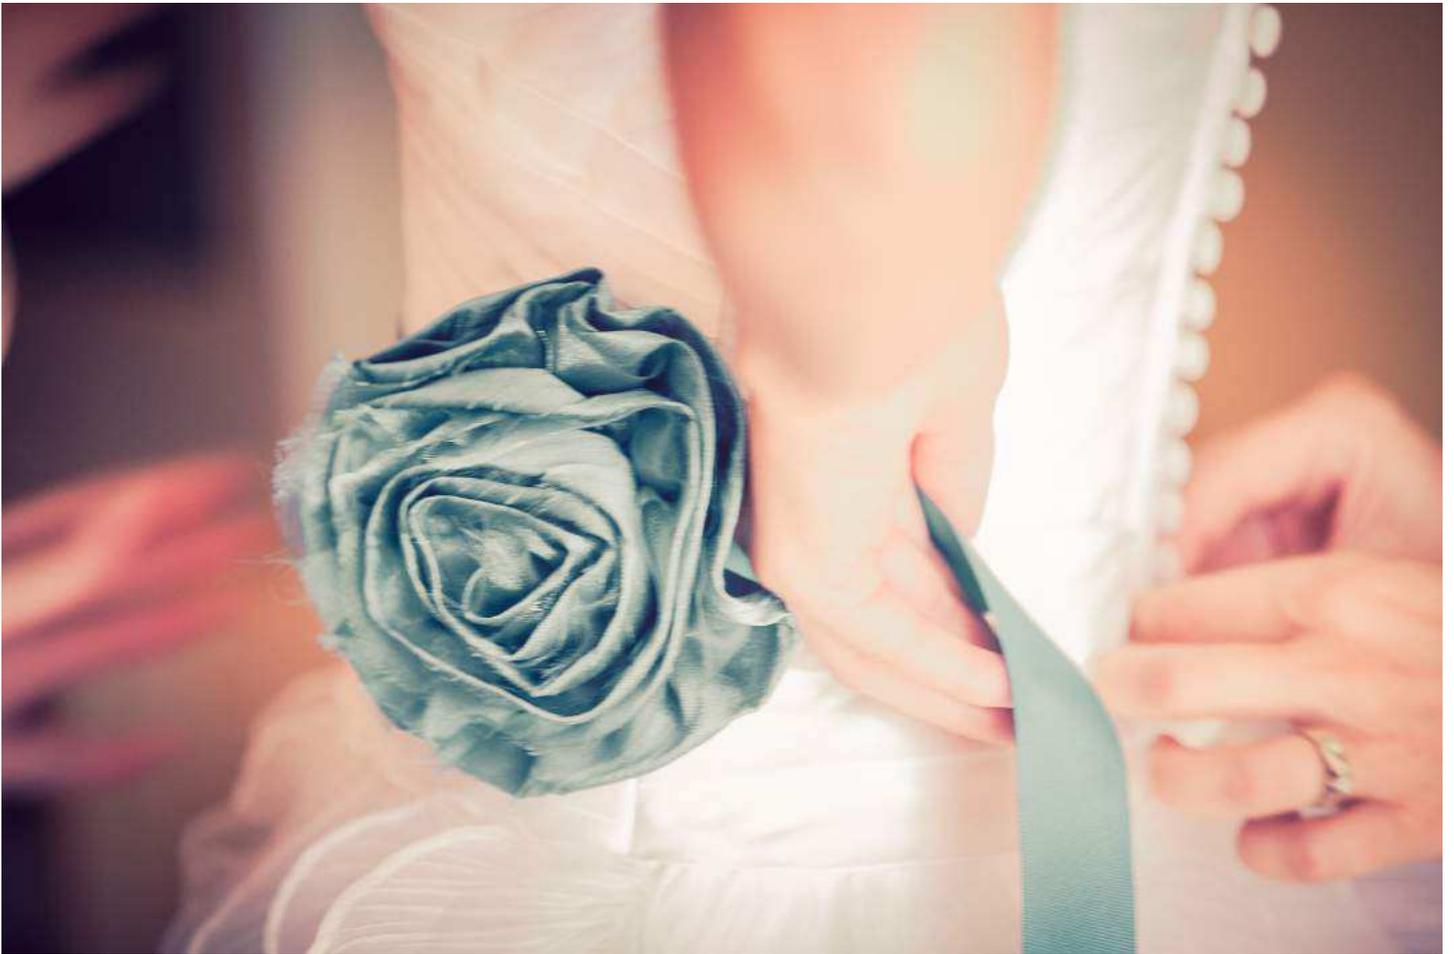

a simple list for you

Whether you're dreaming about swapping handwritten vows on a beach, a sweet and sublimely simple event at your private villa, or a Spanish fiesta at a bodega - Weddings to Envy is here to help you.

Wedding planning is all about thoughtful details - from logistical navigation, to vendor negotiation, budget creation, and little details - like remembering to apply for the right licenses.

In addition to planning your silky-smooth wedding adventure, we act as style-guides & designers, every step of the way. From your floral color palette to the retro-chic typography on your menu cards. We specialize in profoundly personal touches. It is the bit we love the most.

And on the date of your actual wedding? We'll be there making sure everything is arranged, served & sequenced, just right - and (most importantly) making every single guest feel like a main character in your love story.

Religious and Non Religious Blessings are by far the most popular ceremony. Although not legally binding they offer complete flexibility and the chance for couples wishing to elope, renew vows, have a gathering of guests or celebrate a same sex partnerships to personalize their ceremony. A blessing requires that you marry legally at home prior to your blessing ceremony.

Blessings are performed by either our resident Church of England Chaplain, or Celebrant who are English speaking.

Weddings to Envy can also assist with Civil Ceremonies for Residents of Lanzarote of 2 years or more. Catholic Church Weddings are no longer available to Non-Residents.
